

Galactic Paper

Introduction:

The future of meme coins is being taken over, all meme coins must surrender or be hunted down night and day. Galactic inu travels around the galaxy looking for planets that inhabit meme tokens, the mission goal is to remove all meme tokens from existence. Galactic inu has chosen earth as its next target. Galactic is based on the ancient mythology, the master of the underworld Anubis. Galactic inu launched on the BSC network, be part of this new exciting journey with a fast growing community. Join now or be hunted down.

Token & Community Mechanisms

Interval Burns: 15% burned and counting, more burning of tokens will be done in careful intervals to help maintain stability.

Galactic Games: Look forward to many thrilling and immersive games. Mobile and PC games will be a focus for the project, with some game being available sooner!

DarkSwap: The DEX with anonymous transactions... coming soon.

Galactic Movie: In-development... To conquer, is to live.

NFT Collections: Many unique and rare collectibles will be available soon.

Active Community: Implementing a DAO is a long-term goal, and we are looking forward to creating a more engaging community through all we do.

Liquidity Lock & Marketing

Marketing:

A comprehensive social media and influencer promotion payload is underway, from small to big, all will promote the great Galactic conquerer.

Our books are in order, and have put aside an accumulated amount of funds raised by project creators to fuel the initial promotion of Galactic Inu. In the future, the usage of a marketing wallet will be more efficient and would allow us to reach even the furthest stars.

Liquidity :
